

## Sample Networking E-mail

Dear Mr. Rose:

It was with pleasure that I discovered your name on one of Edu-Tech University's LinkPlace communities. I am a graduating Edu-Tech senior this year, and am exploring a career in Copyright Law. It has been a difficult decision for me to decide which aspect of the law to focus upon and whether to apply directly to law school or to pursue a Legal Assistant position following graduation.

I am contacting you because I am interested in your experience in the field, as well as your perspective on the pros and cons of various law programs, and their timing. If possible, it is my hope to call and speak with you directly; I would anticipate no longer than a fifteen minute call. In advance, might I email you a list of several related questions? Perhaps you could email a reply and one or two convenient times for me to phone over the next week or so for a follow-up. I look forward to your reply and thank you for your consideration.
