Social Worker Cover Letter Sample 1:

I am interested in applying for the Social Worker position that you are currently looking to fill. I possess a Master’s Degree in Social Work from an Accredited School of Social Work and am licensed in the Maryland at clinical and macro levels. In addition I hold a Hospital and Health Systems Accreditation in Case Management as well as being certified as a senior advisor. I have worked within a variety of settings with diverse individuals providing me with numerous and valuable experiences. My career has given me the ability to independently conduct assessments and provide help to a wide variety of individuals from various socio-economic, cultural, ethnic, educational and other diversified backgrounds.

My ability to utilize community resources and provide education to those in need is essential for a Social Worker. Thinking outside the box in order to meet any unique needs that may come up unexpectedly requires an immediate reassessment and prompt action to execute. Being able to think fast on your feet is part of the advance skills that I bring to the table.

My advanced assessment and treatment skills help prepare families with a wide range of social, emotional, and health related problems. I have collaborated with health care professionals such as doctors, nurses, case managers and spiritual care. I have evaluated the social and emotional needs of families to determine the types of social work services needed.

My career has allowed me to complete a range of advanced social work methods with families, individuals and groups demonstrating my mature skills in casework with even the most difficult clients and their families. I am also proficient collaborating with the relevant interdisciplinary teams, committees, and utilizing community resources to most appropriately meet the needs of the clientele.

While my resume and credentials attest to my professional qualifications, I have many additional personal experiences that support my knowledge and sensitivity. I offer commitment, excitement, organization, passion and professionalism: qualities that are necessary for providing leadership and promoting a positive work environment and client relationship.

After you have had a chance to review my employment history and responsibilities, I would welcome the opportunity to discuss further the positions you are hiring for.
Social Worker Cover Letter Sample 2:

I am writing to apply for your Social Worker, MSW position in Pediatrics. The position was brought to my attention by an academic advisor who was aware of my interest in pediatric social work. I recently earned my Master of Social Work at the Francis School of Social Work at Bigtown University in March of this year. I am currently in the process of becoming a licensed Master of Social Work in both Bigtown and Maine.

I have extensive experience working with children and adolescents in foster care and school settings. I worked as a social work intern and an associate social worker at the Shining Light Child Care Center in Bigtown City last year. I held a case load of 6-7 children as an intern and 30 children as an associate social worker along with a MSW case planner. Together, we performed school visits, court hearings, home visits to both foster and biological families and supervised family and sibling visits. I also performed individual supportive counseling sessions with foster and biological families and foster children.

In addition to my work with children, I also have experience working in an adult impatient hematology and oncology unit at Bigtown University’s Gershwin Medical Center as an intern this past year. I performed psychosocial assessments, held family meetings, provided supportive and therapeutic counseling sessions with family and patients. I used cognitive behavioral and crisis intervention techniques when counseling my patients. I also created discharge plans for patients and worked closely and maintained communication with the hospital’s medical team.

During my advanced concentration year at Bigtown University, I became involved with the Jack Archer Studies Program in Littleburg and End of Life Care as a fellow. I am very passionate about Littleburg care with regards to children and pediatrics. As an intern at NYU Gershwin Medical Center, I provided end of life and bereavement counseling with patients and families. I also became familiar with hospice and Littleburg care facilities and programs throughout Bigtown and Maine so I could educate and create discharge plans for my patients upon their discharge from the unit.

Along with my clinical skills, I believe my training and experience have provided me with the knowledge to become a part of your social work department with your pediatrics team. Thank you very much for your time and consideration for the position. I hope to hear from you. I can be reached directly at either my email address or phone number included.
